

Multi-Device Charging Station, 48 USB Ports, iPad and Android Tablets, Black

MODEL NUMBER: CS48USB

Locking steel cabinet provides 2.4A USB charging, syncing, secure storage and cord management for up to 48 tablets and other USB devices. Recommended for education, office, commercial, retail, industrial and healthcare environments.

Description

The CS48USB 48-Device USB Charging Station Cabinet provides fast charging, convenient syncing, secure storage and cord management for up to 48 iPad, Android, Surface and Kindle tablets, as well as mobile phones and other USB devices. It's recommended for education, office, commercial, retail, industrial and healthcare environments.

48 USB ports deliver the fastest charging supported by each device, up to 2.4A per port. The charging station also supports wired and wireless syncing, including syncing while charging.

The steel cabinet promotes comprehensive device protection with steel construction and a black powder-coated finish for long-term durability. It locks with the included keys to help prevent device theft, damage or tampering. Flow-through ventilation protects against overheating, and the coated shelves help prevent scratches and scuffs. The charging station also provides clutter-free organization of devices and cabling.

The CS48USB is easy to configure. It ships fully assembled and supports mounting to a wall, desk, table, counter or floor. The front door opens 180 degrees for improved device and service access, and removable dividers accommodate thicker devices. You can convert the CS48USB to a mobile cart with Tripp Lite's optional CSHANDLEKIT accessory (sold separately).
