

850VA 480W Line-Interactive UPS with 4 Schuko CEE 7/7 Outlets - AVR, 230V, 1.5 m Cord, LCD, USB, Tower

MODEL NUMBER: OMNIVSX850D

Line-interactive UPS provides basic battery backup with automatic voltage regulation for your office computer or home theater setup.

Features

850VA/480W/230V Battery Backup for PCs, Home Theater or Digital Signage This 230V UPS with AVR protection provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The four-outlet 230V battery backup is ideal protection for your home office, media center or commerce components, including computers, routers, printers, HDTVs, Blu-ray players, game consoles, ATMs, security systems and digital signage equipment.

Allows Time to Back Up Critical Files During a Blackout Backup support allows you to work through short power failures, and gives you enough time to safely save files and shut down your system in case of a prolonged blackout. Backup time varies according to load, but the line-interactive UPS system should keep an energy-efficient desktop computer with small LCD monitor powered as long as 46 minutes. During normal operation, incoming utility power keeps the replaceable internal battery fully charged, so backup power will always be available.

Connects Your Equipment to 4 Protected Schuko CEE 7/7 Outlets All four Schuko outlets provide both battery backup and surge protection for your computer, monitor and other crucial components. A high >95% line mode efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage Conditions AVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The OMNIVSX850D can correct brownouts as low as 170V and overvoltages as high as 280V back to nominal 230V power continuously, all while keeping the battery fully charged and ready to take over in case of power failure.

312 Joules Fight Back Against Unexpected Power Surges A 312-joule surge suppression rating protects connected components from the harmful effects of power surges.

Combats Electromagnetic Interference That Can Harm Equipment Various electromagnetic and radio sources found in virtually every home and business can cause disruptive interference on the AC line. Known as EMI (electromagnetic interference) and RFI (radio frequency interference), this line noise is a common cause of performance problems and can lead to incremental hardware damage, data corruption and audio/video transmission problems. The OMNIVSX850D incorporates technology that filters out disruptive line noise so that it won't affect your equipment.

Easy-to-Read LCD Touchscreen Reports Real-Time UPS and Power Status The LCD touchscreen offers five screens of UPS and site power information when the OMNIVSX850D is operating in either on-line or battery power mode. It displays vital voltage, load and battery data, as well as critical fault status. An audible alarm will sound in case of low battery, excessive load and fault condition.

Highlights

- Protects equipment against blackouts, brownouts, overvoltages, surges and line noise
- AVR battery backup allows time to save files and safely shut down during blackouts
- 4 Schuko outlets provide power to PC, home theater or digital signage equipment
- Easy-to-read LCD touchscreen provides valuable voltage, load and battery data
- High >95% efficiency with low BTU ratings saves power and lowers your energy costs

Applications

- Protect your PC and other sensitive electronics against power surges, line noise, brownouts, overvoltages and blackouts
- Operate essential equipment during short-term power outages using battery backup power
- Shut down PCs, DVRs, routers and other equipment without data loss during long-term power outages

Package Includes

- OMNIVSX850D 850VA 480W Line-Interactive UPS with 4 Outlets
- USB cable
- Owner's manual

HID-Compliant USB Port Allows for Automatic Saves and ShutdownsThis port connects the OMNIVSX850D to a computer running Tripp Lite's free downloadable PowerAlert® software to enable safe unattended file saves and system shutdown in case of a prolonged power failure. USB cable is included. The UPS works with Windows, Mac and Linux operating systems.

Tower Form Factor for Easy Placement in Your Workspace or Media CenterThe compact ABS housing fits easily on a desktop, shelf or anywhere else convenient to your workstation or home theater. The 1.5-meter power cord with Schuko CEE 7/7 plug connects to a properly grounded AC wall outlet.

Specifications

OVERVIEW	
UPC Code	037332218131
UPS Type	Line-Interactive
INPUT	
Rated input current (Maximum Load)	3.7
Nominal Input Voltage(s) Supported	230V AC
UPS Input Connection Type	CEE 7/7 Schuko
Input Circuit Breakers	5A breaker
UPS Input Cord Length (ft.)	5
UPS Input Cord Length (m)	1.5
Input Phase	Single-Phase
OUTPUT	
Output Volt Amp Capacity (VA)	850
Output Watt Capacity (Watts)	480
Nominal Voltage Details	230V nominal output in battery mode
Frequency Compatibility	50 / 60 Hz
Frequency Compatibility Details	Automatic frequency selection
Output Voltage Regulation (Battery Mode)	±10%
Output Receptacle Details	Includes Schuko CEE 7/7 outlets
Output AC Waveform (AC Mode)	Sine wave
Output AC Waveform (Battery Mode)	PWM sine wave
Nominal Output Voltage(s) Supported	220V; 230V; 240V
Output Receptacles	(4) CEE7/7
Individually Controllable Load Banks	No
BATTERY	

Half Load Runtime (min.)	5 minutes (240 watts)
DC System Voltage (VDC)	12
Battery Recharge Rate (Included Batteries)	Less than 8 hours from 10% to 90%
Internal UPS Replacement Battery Cartridge	 UPS-Replacement-Battery-Cartridge-Tripp-Lite-APC-Belkin-Best-Powerware-Liebert-other-UPS~RBC51">RBC51
Battery Replacement Description	See manual for battery replacement information
Expandable Runtime	No
VOLTAGE REGULATION	
Voltage Regulation Description	Automatic voltage regulation (AVR) maintains line power operation with a correction range from 170V to 280V
Overvoltage Correction	Input voltages between 247 and 280 are reduced by 15%
Undervoltage Correction	Input voltages between 170 and 207 are boosted by 18%
USER INTERFACE, ALERTS & CONTROLS	
Front Panel LCD Display	Touchscreen LCD indicates input voltage, output voltage, output load percentage and battery charge percentage; Supports additional fault reporting (see manual); Touchscreen LCD remains lighted for 20 seconds in line power mode after any user interaction and remains lighted full time in battery mode
Switches	Power switch offers whole UPS off/on power control
Alarm Cancel Operation	Alarm remains silent in battery power mode until low-battery condition occurs
Audible Alarm	Audible alarm indicates low-battery condition during battery mode operation
SURGE / NOISE SUPPRESSION	
UPS AC Suppression Joule Rating	312
UPS AC Suppression Response Time	Instantaneous
EMI / RFI AC Noise Suppression	Yes
PHYSICAL	
Installation Form Factors Supported with Included Accessories	Tower
Primary Form Factor	Tower
Primary UPS Depth (mm)	345
Primary UPS Height (mm)	160
Primary UPS Width (mm)	122
Shipping Dimensions (hwd / in.)	9.80 x 14.20 x 23.60
Shipping Weight (kg)	6.49
UPS Housing Material	ABS
UPS Power Module Dimensions (hwd, in.)	6.3 x 4.8 x 13.6

UPS Power Module Weight (kg)	5.99
UPS Power Module Weight (lbs.)	13.2
ENVIRONMENTAL	
Operating Temperature Range	+32 to +104 degrees Fahrenheit / 0 to +40 degrees Celsius
Storage Temperature Range	+5 to +122 degrees Fahrenheit / -15 to +50 degrees Celsius
Relative Humidity	Up to 90%, non-condensing
AC Mode BTU / Hr. (Full Load)	62
AC Mode Efficiency Rating (100% Load)	>95%
Audible Noise	Less than 40dB front side 1m
COMMUNICATIONS	
Network Monitoring Port Description	Supports detailed monitoring of UPS and site power conditions
PowerAlert Software	For local monitoring via the UPS's built-in communication ports, download PowerAlert Local software at http://poweralert
Communications Cable	USB cabling included
WatchDog Compatibility	Supports Watchdog application, OS and hard-reboot restart options for remote applications
Communications Interface	USB (HID enabled)
LINE / BATTERY TRANSFER	
Transfer Time	6 milliseconds
Low Voltage Transfer to Battery Power (Setpoint)	170V
High Voltage Transfer to Battery Power (Setpoint)	280V
SPECIAL FEATURES	
Cold Start (Startup in Battery Mode During a Power Failure)	Cold-start operation supported
High Availability UPS Features	Automatic Voltage Regulation (AVR); Surge/noise protection
Green Energy-Saving Features	Greater than 95% efficiency - GREEN UPS
STANDARDS & COMPLIANCE	
UPS Certifications	CE; Tested to EAC (Belarus, Kazakhstan, Russia)
Certification Details	IEC 62040-1:2008+A1:2013; EN62040-2:2006, IEC62040-2:2016, Category C2
WARRANTY	
Product Warranty Period (International)	2-year limited warranty
