

DisplayPort to DVI Cable Adapter, Converter for DP-M to DVI-I-F, 6 in., 50 Pack

MODEL NUMBER: P134-000-50BK

Passive adapters connect your computer or tablet's DisplayPort™ to the DVI input on a monitor, projector or television. Source devices must have DisplayPort++ (DP++) for HDMI/DVI pass-through.

Description

The P134-000-50BK is a bulk pack of fifty (50) P134-000 DisplayPort to DVI Cable Adapters (M/F). Each adapter connects a DisplayPort computer or tablet to the DVI input port on a monitor, projector or television. With a male DisplayPort connector and a female DVI-I dual-link connector, each adapter lets you use your existing DVI display instead of buying a new DisplayPort monitor.

Ideal for displaying video on a large monitor or digital sign, these six-inch adapters support DVI-D single-link computer video resolutions up to 1920 x 1200 and HD video resolutions up to 1920 x 1080 (1080p). Because they are passive adapters, these units require that the connected source device have a DP++ port, which allows HDMI and DVI signals to pass through (check your DisplayPort source's documentation for compatibility).

Foil and braid shielding delivers reliable, error-free signal quality and helps protect from EMI/RFI line noise that can distort or destroy data. Fully molded ends with corrosion-resistant gold-plated contacts provide maximum conductivity and minimize data loss. Integral strain relief gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking.

These P134-000 adapters are plug-and-play units with no software, drivers or power supply needed. They fit easily in a briefcase, backpack or laptop bag for connecting on the go.

Features

Send High-Definition DisplayPort Video Signals to a DVI Display

- Connects DisplayPort computer or tablet to DVI-enabled monitor, projector or TV
- Recommended for digital signage or presentations in a classroom or conference room

Highlights

- 50-piece bulk pack of P134-000 DisplayPort to DVI adapters
- Supports DVI-D single-link video resolutions up to 1920 x 1200
- Supports HD video resolutions up to 1080p
- Premium foil and braid shielding helps protect against EMI/RFI noise
- Plug and play—no software, drivers or power supply needed

System Requirements

- Source device with DisplayPort output
- Display device with DVI input
- Source must have DP++ port for HDMI/DVI pass-through
- Not for use with MST hubs

Package Includes

- (50) P134-000 DisplayPort to DVI Cable Adapters (M/F), 6 in.

- Male DisplayPort and female DVI-I dual-link connectors
- Bulk pack includes 50 Tripp Lite P134-000 DisplayPort to DVI converters

Vibrant Video Quality

- Supports DVI-D single-link video resolutions up to 1920 x 1200
- Supports HD video resolutions up to 1920 x 1080 (1080p)
- Passive adapter requires source device to have DP++ compatibility for HDMI/DVI signal pass-through

Superior Materials for Superior Performance

- Foil and braid shielding helps protect against EMI/RFI line noise that can distort or destroy data
- Molded connectors and gold-plated contacts for maximum conductivity and minimum data loss
- Integral strain relief protects cable and connectors from stress and cracking

Convenient to Use Anywhere

- Plug-and-play—no software, drivers or power supply necessary
- Fits easily into briefcase, backpack or laptop bag
