

# Line-Interactive UPS 1440VA 1200W - 8 NEMA 5-15R Outlets, AVR, USB, Serial, LCD, Extended Run, Tower

## MODEL NUMBER: SMART1500LCDTXL

Desktop UPS offers complete power protection for small network applications, including wiring closets, security systems and digital signage.

#### **Features**

# 1440VA/1200W/120V Battery Backup for PC Networks, Security Systems or Digital Signage The SmartPro® line-interactive SMART1500LCDTXL UPS system with AVR provides reliable battery

The SmartPro® line-interactive SMART1500LCDTXL UPS system with AVR provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The eight-outlet 120V battery backup is ideal protection for small networks, wiring closets, security systems, high-end PC gaming, digital signage equipment and other professional applications, including retail, casino and hotel/motel management.

#### Allows Time to Back Up Critical Files During a Blackout

Backup support allows you to work through short power failures and gives you enough time to safely save files and shut down your system in case of a prolonged blackout. Backup time varies according to load, but the line-interactive UPS system should keep an energy-efficient desktop computer with small LCD monitor powered as long as 90 minutes (using internal batteries only).

#### Supports an External Battery Pack for Extended Runtime

In addition to the replaceable internal battery, the SMART1500LCDTXL supports connection of one optional BP24V15RT2U external battery pack (sold separately). During normal operation, incoming utility power keeps the internal and external batteries fully charged, so backup power will always be available.

#### 8 NEMA 5-15R Outlets Protect Your Connected Components

Six 5-15R outlets provide battery backup, 316 joules of surge protection and voltage regulation for your computer, monitor and other crucial components. The other two 5-15R outlets provide surge suppression only for printers, speakers and other desktop equipment regarded as non-essential during a blackout.

## Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage Conditions

AVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The SMART1500LCDTXL can correct brownouts as low as 89V and overvoltages as high as 145V back to nominal 120V power continuously, all while keeping the battery fully charged and ready to take over in case of power failure.

## **Combats Line Noise That Can Harm Equipment**

EMI (electromagnetic interference) and RFI (radio frequency interference) are common causes of

#### **Highlights**

- Protects equipment against blackouts, brownouts, overvoltages, surges and line
- Keeps AC power running during blackouts to allow time for file saves and safe shutdown
- Maintains continuous 120V nominal output during brownouts and overvoltages
- Home-friendly alarm remains silent in backup mode, sounding only when imperative
- Compatible with optional external battery pack for extended runtime operation

## **Applications**

- Protect your small network server and other network components against power surges, line noise, brownouts, overvoltages and blackouts
- Operate essential equipment during short-term power outages using battery backup power
- Shut down desktop PCs and other equipment without data loss during long-term power outages
- Connect high-end security systems, casino gaming machines or digital signage in a small network
- Extend runtime for DVRs, wireless routers and other lowpower home network equipment

performance problems and can lead to incremental hardware damage, data corruption and audio/video transmission problems. The SMART1500LCDTXL filters out this disruptive line noise on the AC line, so that it won't affect your equipment.

#### Designed for High Efficiency to Help You Save Money and Protect the Environment

A >95% efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

#### Home-Friendly Silent Alarm and LCD Touchscreen Keep You Informed 24/7

The UPS remains silent in both line and battery backup modes. The alarm sounds only to report low battery, battery replace, overload and fault condition. The LCD touchscreen offers five screens of UPS and site power information when the UPS is operating in either on-line or battery power mode. It displays vital voltage, load and battery data, as well as critical fault status.

#### **Advanced Communications Ports Allow for Automatic Saves and Shutdowns**

RS-232 and HID-compliant USB ports connect to a computer running Tripp Lite's free downloadable PowerAlert® software to enable safe unattended file saves and system shutdown in case of a prolonged power failure. Cables are included.

#### **Compact Housing Compatible with Easy Desktop Installation**

The space-saving ABS tower fits on a desktop, shelf or any other flat surface convenient to your workstation or home theater. The five-foot power cord with NEMA 5-15P plug connects to any compatible AC outlet. A built-in fan regulates the internal temperature to help prevent overheating.

## **Package Includes**

- SMART1500LCDTXL 1440VA 1200W 120V Line-Interactive UPS with 8 Outlets
- USB cable
- DB9 cable
- Owner's manual

# **Specifications**

OVERVIEW		
UPC Code	037332221582	
UPS Type	Line-Interactive	
INPUT		
Rated input current (Maximum Load)	12A	
Nominal Input Voltage(s) Supported	120V AC	
UPS Input Connection Type	5-15P	
Input Circuit Breakers	15A	
UPS Input Cord Length (ft.)	5	
UPS Input Cord Length (m)	1.5	
Recommended Electrical Service	15A 120V	
Input Phase	Single-Phase	
ОИТРИТ		
Output Volt Amp Capacity (VA)	1440	
Output kVA Capacity (kVA)	1.44	
Output Watt Capacity (Watts)	1200	
Output kW Capacity (kW)	1.2	
Nominal Voltage Details	120v nominal output in battery mode

UPS Power Module Dimensions (hwd, in.)	7.5 x 5.5 x 15	
UPS Power Module Weight (kg)	14.61	
UPS Power Module Weight (lbs.)	32.2	
ENVIRONMENTAL		
Operating Temperature Range	+32 to +104 degrees Fahrenheit / 0 to +40 degrees Celsius	
Storage Temperature Range	+5 to +113 degrees Fahrenheit / -15 to +45 degrees Celsius	
Relative Humidity	0 to 90%, non-condensing	
AC Mode BTU / Hr. (Full Load)	175	
AC Mode Efficiency Rating (100% Load)	>95%	
Audible Noise	<50dB @ 1m front side	
COMMUNICATIONS		
PowerAlert Software	For local monitoring via the UPS's built-in communication ports, download PowerAlert Local software at http://	
Communications Cable	USB and DB9 serial interface cables included	
WatchDog Compatibility	Supports Watchdog application, OS and hard-reboot restart options for remote applications	
Network UPS Tools Compatibility		
Communications Interface	DB9 Serial; USB (HID enabled)	
LINE / BATTERY TRANSFER		

Transfer Time	6 milliseconds typical (10 milliseconds max)	
Low Voltage Transfer to Battery Power (Setpoint)	89	
High Voltage Transfer to Battery Power (Setpoint)	145	
SPECIAL FEATURES		
Cold Start (Startup in Battery Mode During a Power Failure)	Cold-start operation supported	
High Availability UPS Features	Automatic Voltage Regulation (AVR); Surge/noise protection	
Green Energy-Saving Features	Greater than 95% efficiency - GREEN UPS	
STANDARDS & COMPLIANCE		
UPS Certifications	Meets FCC Part 15 Category A (EMI); Tested to CSA (Canada); Tested to NOM (Mexico); Tested to UL1778 (USA)	
Certification Details	UL1778: 2014 5th EDITION; CAN/CSA-C22.2 NO. 107.3:2014 3rd EDITION; FCC CLASS A; FCC Part 68 Approved (#5WSWP01B005); Industry Canada Approved (#3449A-005, REN0.1B); RETIE (Colombia)	
WARRANTY
