

Base Modules for BL67 I/O

Style	Part Number	Description
<p>Two <i>eurofast</i>® Connectors</p> 	BL67-B-2M12	Base module with two <i>eurofast</i> connectors. When used with 4 input or 4 output modules each connector has 2 I/O points.
<p>Two <i>eurofast</i> Connectors with Paired I/O</p> 	BL67-B-2M12-P	Base module with two <i>eurofast</i> connectors. Each connector has 2 I/O points, paired so consecutive points are on the same connector.
<p>Four <i>eurofast</i> Connectors</p> 	BL67-B-4M12	Base module with four <i>eurofast</i> connectors. When used with 8 input or 8 output modules each connector has 2 I/O points.
<p>Four <i>eurofast</i> Connectors with Paired I/O</p> 	BL67-B-4M12-P	Base module with four <i>eurofast</i> connectors. Each connector has 2 I/O points, paired so consecutive points are on the same connector.

Base Modules for BL67 I/O

Style	Part Number	Description
<p>One <i>eurofast</i>® Connector (5-pin)</p> 	BL67-B-1M12	Base module with one <i>eurofast</i> 5-pin connector. Typically used with serial I/O modules.
<p>One <i>eurofast</i> Connector (8-pin)</p> 	BL67-B-1M12-8	Base module with one <i>eurofast</i> 8-pin connector. Typically used with serial I/O modules.
<p>Four <i>picofast</i>® Connectors</p> 	BL67-B-4M8	Base module with four <i>picofast</i> connectors. Typically used with 4-input or 4-output modules.
<p>Eight <i>picofast</i> Connectors</p> 	BL67-B-8M8	Base module with eight <i>picofast</i> connectors. Typically used with 8-input or 8-output modules.
