

## Safety Data Sheet

acc. to OSHA HCS

Printing date 05/01/2015

Reviewed on 05/01/2015

# 1 Identification

## - Product identifier

- Trade name: Vibra-TITE® Excel Structural Activator

- Synonyms: 600 Excel Structural Activator

- Part number: VT600

- Relevant identified uses of the substance or mixture Adhesive activator

#### - Details of the supplier of the safety data sheet

- Manufacturer/Supplier: ND Industries, Inc 1000 North Crooks Road Clawson, MI 48017 USA Telephone: +1-248-288-0000 Email: info@ndindustries.com Website: www.ndindustries.com

#### - Information department: Product safety department

- *Emergency telephone number:* United States: 1-800-424-9300 International: +1-703-527-3887

2 Hazard(s) identification

#### - Classification of the substance or mixture

Acute Tox. 4H302Harmful if swallowed.Acute Tox. 4H312Harmful in contact with skin.Skin Irrit. 2H315Causes skin irritation.

Eye Irrit. 2B H320 Causes eye irritation.

#### - Label elements

- GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS).

- Hazard pictograms

- Signal word Warning

## - Hazard-determining components of labeling:

## Accelerator

- Hazard statements
- H302+H312 Harmful if swallowed or in contact with skin.
- H315+H320 Causes skin and eye irritation.

## - Precautionary statements

P280	Wear protective gloves.
P280	Wear protective gloves / protective clothing.
P264	Wash thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P305+P351+P338	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.
	Continue rinsing.
P301+P312	If swallowed: Call a poison center/doctor if you feel unwell.
P332+P313	If skin irritation occurs: Get medical advice/attention.
P337+P313	If eye irritation persists: Get medical advice/attention.
P330	Rinse mouth.
P302+P352	If on skin: Wash with plenty of water.
P362+P364	Take off contaminated clothing and wash it before reuse.
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Printing date 05/01/2015

### Trade name: Vibra-TITE® Excel Structural Activator

- Classification system: - NFPA ratings (scale 0 - 4)

- HMIS-ratings (scale 0 - 4)

- Other hazards

#### - Results of PBT and vPvB assessment

- PBT: Not applicable.
- vPvB: Not applicable.

#### 3 Composition/information on ingredients

#### - Chemical characterization: Mixtures

- **Description:** Mixture of the substances listed below with nonhazardous additions.

- Dangerous components:			
Tetrahydrofurfuryl Methacrylate	70-80%		
Accelerator	20-30%		
1338-02-9 Naphthenic acids, copper salts	≤ 1.00%		

## **4 First-aid measures**

#### - Description of first aid measures

#### - After inhalation:

In case of unconsciousness place patient stably in side position for transportation.

- Supply fresh air; consult doctor in case of complaints.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing: If symptoms persist consult doctor.
- Information for doctor:
  - Most important symptoms and effects, both acute and delayed No further relevant information available.
  - Indication of any immediate medical attention and special treatment needed
  - No further relevant information available.

## **5** Fire-fighting measures

## - Extinguishing media

#### Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture No further relevant information available.

#### - Advice for firefighters

## - Protective equipment:

Wear self-contained respiratory protective device. Wear fully protective suit.

## 6 Accidental release measures

## - Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation

Wear protective clothing.

## Environmental precautions:

Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers/ surface or ground water.

#### - Methods and material for containment and cleaning up: Ensure adequate ventilation.

Dispose of the collected material according to regulations.

## - Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

(Contd. of page 1)

#### 7 Handling and storage

#### - Handling:

- Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

- Information about protection against explosions and fires: Protect from heat.

#### - Conditions for safe storage, including any incompatibilities

#### - Storage:

- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions:
- Keep receptacle tightly sealed.

Protect from heat and direct sunlight.

- **Specific end use(s)** No further relevant information available.

#### 8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.

#### - Control parameters

#### - Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. - Additional information: The lists that were valid during the creation were used as basis.

#### - Exposure controls

#### - Personal protective equipment:

General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

## - Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

#### - Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

#### - Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### - Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. - **Eye protection:** 

Tightly sealed goggles

- Body protection: Protective work clothing

## 9 Physical and chemical properties
