# POWER MODULES

## Standard Diode Modules

Versatile and high-efficiency power diode and SCR modules from Vishay Intertechnology feature industry-standard outlines with a choice of diode and thyristor rectifiers. Offering single-rectifying/switch component, half-bridge, and center-tapped configurations, these modules are the ideal choice for input rectification applications at either low or high voltages.

Vishay modules fulfill a single or composite function within a single package that offers a thermally conductive, but electrically isolated, path to the outside circuit. This electrical isolation between the baseplate and the active semiconductors provides a key advantage over discrete components. The modules are RoHS-compliant and meet industry standards for safety, including UL approval.

State-of-the-art compression bonding (for current ratings higher than 250 A) and ultrasonic aluminum wire bonding technologies allow the modules to achieve outstanding performance. Vishay’s high-power modules are recognized throughout the world for their ruggedness, high reliability, and consistency of mechanical specifications and electrical characteristics.

### Features

- Wide range of industry-standard package styles
- Direct mounting on heatsink
- Choice of rectifier and thyristor technologies
- Optimized high-voltage diode and SCR
- Fast recovery diode modules available
- High isolation voltage (2500 V)
- RoHS-compliant
- Low thermal resistance
- Low- / high-temperature performance (-40 °C to +175 °C)
- UL approved

### Options

- Customizable for specific application needs
- Gate and auxiliary cathode accessories available upon request

### Applications

- Single- and three-phase input rectification
- Industrial welding
- Switch mode power supplies
- Motor drives
- UPS
- Anti-parallel thyristors (AC switches)

### Dimensions in Millimeters

## Bridge Rectifier Modules

Versatile and high-efficiency bridge modules from Vishay Intertechnology feature industry-standard outlines with a choice of single-phase and three-phase rectifying bridges. The modules are the ideal choice for input rectification applications at either low or high voltages, with the electrical isolation between the baseplate and the active semiconductors providing a key advantage over discrete components. External electrical connections are provided with a choice of different terminal option, including fast-on, solderable pins, and bolt-down.

Vishay high-power bridge modules are RoHS-compliant and meet industry standards for safety, including UL approval. The devices are recognized throughout the world for their ruggedness, high reliability, and consistency of mechanical specifications and electrical characteristics.

### Features

- Wide range of package styles and configurations with diode and / or thyristor technologies
- Direct mounting on heatsink
- Compact case styles for screw, solderable pin, and fast-on plug terminations
- PressFit pins NOW available on MTP package
- High isolation voltage: up to 4000 V
- RoHS-compliant
- Low thermal resistance
- UL approval
- High surge current: up to 1880 A

### Options

- Customizable for specific application needs
- Temperature sensor available in some package styles

### Applications

- Single- and three-phase input rectification

### Dimensions in Millimeters

MTK

MTP (Solderable Pins)

Pace-Pak

## IGBT Modules

High-efficiency IGBT modules from Vishay Intertechnology feature industry-standard outlines with a choice of PT, NPT, and Trench IGBT technologies. Configured as single switches, inverters, choppers, half-bridges, or in custom configurations, these modules are the ideal choice for high-frequency power applications that demand high-efficiency performance. They are designed for use as a main switching device in switch mode power supplies, uninterruptible power supplies, industrial welding, motor drives, and power factor correction systems. Typical applications include boost and buck converters, forward and double forward converters, half bridges, full bridges (H-bridge), and three-phase bridges. Low thermal resistance allows Vishay IGBT modules to operate at higher case temperatures while maintaining the operating junction temperature within safe limits. Electrically isolated from the circuit, the base plate is exposed, allowing for direct mounting to the heat sink. With improved current sharing and lower operating junction temperatures, designers can now achieve higher system reliability. Vishay IGBT modules are RoHS-compliant and meet industry standards for safety including UL approval.

### Features

- Wide range of industry-standard package styles
- Direct mount on heat sink
- Choice of PT, NPT, and Trench IGBT technologies
- Low- $V_{CE(on)}$  IGBT
- Switching frequency from 1 kHz to 150 kHz
- Optimized anti-parallel ultrafast diode with soft recovery characteristics
- Rugged transient performance
- High isolation voltage up to 3500 V
- 100 % lead (Pb)-free and RoHS-compliant
- Low thermal resistance
- Wide operating temperature range (-40 °C to +175 °C)
- UL-approved
- PressFit pins technology now available on selected packages
- Gradually introducing modules using proprietary Vishay 600 V and 650 V IGBT silicon (Trench PT and Trench Field-Stop technologies)

### Options

- Short-circuit capability available on many configurations
- Optional SMD integrated thermistor
- Customizable for specific application needs
- Automotive products upon request

### Applications

- Industrial high-frequency welding
- Switch mode power supplies
- Uninterruptible power supplies
- Motor drives
- Power factor correction
- Solar inverters

## IGBT Modules

### 3-Levels IGBT Modules

Three-Levels Half-Bridge Inverter Stage

Neutral Point Clamp Topology (T-NPC)

	Device <sup>(B)</sup>	Package	Circuit	Pin Out	V <sub>CES</sub> (V)	I <sup>c</sup> at 25 °C (A)	I <sub>c</sub> at T <sub>c</sub>		V <sub>CE(on)</sub> at T <sub>j</sub> = 25 °C typ. (V)	E <sub>tot</sub> at T <sub>j</sub> = 125 °C (mJ)	Speed (kHz)
							(A)	(°C)			
	<a href="#">VS-ENQ030L120S</a>	EMIPAK-1B	Neutral Point Clamp Topology	PressFit	600 to 1200	64	42	80	1.42	0.61	up to 20
	<a href="#">VS-ETF075Y60U</a>	EMIPAK-2B	Three Levels Half-Bridge Inverter Stage	PressFit	600	154	113	80	1.45	2.8	up to 20
	<a href="#">VS-ETF150Y65U</a>	EMIPAK-2B	Three Levels Half-Bridge Inverter Stage	PressFit	650	180	150	60	2.04	2.10	up to 20
	<a href="#">VS-EMF050J60U</a>	EMIPAK2	Three Levels Half-Bridge Inverter Stage	Solderable	600 / 900	88 / 85	60 / 57	80	1.8 / 2.7	1.1	6 to 150
	<a href="#">VS-GT300FD060N</a>	DIAP Low-Profile	Three Levels Half-Bridge Inverter Stage	Screwable	600	396	300	80	1.72	27.6	4 to 30

### Double Interleaved Boost

Double Interleaved Boost Converter

	Device <sup>(B)</sup>	Package	Circuit	Pin Out	V <sub>CES</sub> (V)	I <sup>c</sup> at 25 °C (A)	I <sub>c</sub> at T <sub>c</sub>		V <sub>CE(on)</sub> at T <sub>j</sub> = 25 °C typ. (V)	E <sub>tot</sub> at T <sub>j</sub> = 125 °C (mJ)	Speed (kHz)
							(A)	(°C)			
	<a href="#">VS-ETL015Y120H</a>	EMIPAK-2B	Double Interleaved Boost Converter	PressFit	1200	22	15	80	2.61	1.89	up to 20

## IGBT Modules

### Dual Forward IGBT Modules

Dual Forward

	Device <sup>(B)</sup>	Package	Circuit	Pin Out	V <sub>CES</sub> (V)	I <sup>c</sup> at 25 °C (A)	I <sub>c</sub> at T <sub>C</sub>		V <sub>CE(on)</sub> at T <sub>J</sub> = 25 °C typ. (V)	E <sub>tot</sub> at T <sub>J</sub> = 125 °C (mJ)	Speed (kHz)
							(A)	(°C)			
	<a href="#">VS-100MT060WDF</a>	MTP	Dual Forward	Solderable	600	121	83	80	1.93	2.6	6 to 150
	<a href="#">VS-150MT060WDF</a>	MTP	Dual Forward	Solderable	600	138	96	80	2.11	3.4	70 kHz to 200 kHz

### Primary Rectifier and PFC IGBT Modules

Primary Rectifier and PFC

	Device <sup>(B)</sup>	Package	Circuit	Pin Out	V <sub>CES</sub> (V)	I <sup>c</sup> at 25 °C (A)	I <sub>c</sub> at T <sub>C</sub>		V <sub>CE(on)</sub> at T <sub>J</sub> = 25 °C typ. (V)	E <sub>tot</sub> at T <sub>J</sub> = 125 °C (mJ)	Speed (kHz)
							(A)	(°C)			
	<a href="#">VS-70MT060WSP</a>	MTP	Primary Rectifier and PFC	Solderable	600	96	66	80	1.93	0.57	up to 150
	<a href="#">VS-100MT060WSP</a>	MTP	Primary Rectifier and PFC	Solderable	600	107	73	80	2.14	1.95	up to 150

Note:
