

324-J

Jumper
Accessories

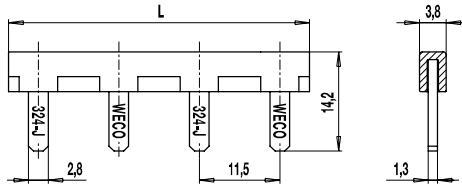

General Information

Pitch	11,5 mm
No. of poles	2 - 12
Usable with	all types of series 324, 324-FU

Material

Moulding	PVC, red
Jumpers	Copper alloy, bare

The jumper 324-J electrically bridges adjacent poles of series 324 terminals. It is available in 11,5 mm pitch with 2 to 12 poles. Just like the lead, it is connected to the clamping units. The jumper shell is insulated.

Part Numbers

No. of poles	324-J	Length	PU
2	12.451.324	20,00	250
3	13.451.324	31,50	100
4	14.451.324	43,00	100
5	15.451.324	54,50	100
6	16.451.324	66,00	100
7	17.451.324	77,50	50
8	18.451.324	89,00	50
9	19.451.324	100,50	50
10	20.451.324	112,00	50
11	21.451.324	123,50	50
12	22.451.324	135,00	50
