

# DATASHEET

## Variable Speed Drives

### Main Features

|                            |                       |
|----------------------------|-----------------------|
| Reference                  | : CFW500B16P0T4DB66G2 |
| Product code               | : 14977552            |
| Product reference          | : CFW500 G2           |
| Accessory module (control) | : CFW500-IOS          |

### Basic data

|                               |             |
|-------------------------------|-------------|
| Power supply                  | : 380-480 V |
| Input minimum-maximum voltage | : 323-528 V |
| Number of phases              |             |
| - Input                       | : 3         |
| - Output                      | : 3         |

|                             |                      |                     |
|-----------------------------|----------------------|---------------------|
| Supply voltage range        | 380-480 V            |                     |
| Overload cycle              | Normal Overload (ND) | Heavy Overload (HD) |
| Rated current               | Not applicable       | 16 A                |
| Overload current for 60 sec | Not applicable       | 24,0 A              |
| Overload current for 3 sec  | Not applicable       | 32,0 A              |

### Maximum applicable motor:

| Voltage/Frequency | Power (HP/kW) [1]    |                     |
|-------------------|----------------------|---------------------|
|                   | Normal Overload (ND) | Heavy Overload (HD) |
| 380V / 50Hz       | Not applicable       | 10 / 7.5            |
| 380V / 60Hz       | Not applicable       | 10 / 7.5            |
| 400V / 50Hz       | Not applicable       | 10 / 7.5            |
| 400V / 60Hz       | Not applicable       | 10 / 7.5            |
| 440V / 50Hz       | Not applicable       | 12.5 / 9.2          |
| 440V / 60Hz       | Not applicable       | 12.5 / 9.2          |
| 460V / 60Hz       | Not applicable       | 12.5 / 9.2          |
| 480V / 60Hz       | Not applicable       | 12.5 / 9.2          |

|   |   |
|---|---|
| Accessory module (control)                              | : CFW500-IOS                                      |
| Dynamic braking [2]                                     | : Standard with braking                           |
| External electronic supply 24Vcc                        | : Not available                                   |
| Safety Stop   | : Prepared to use the safety module (G2)          |
| Internal RFI filter                                     | : Without filter                                  |
| External RFI filter                                     | : Not available                                   |
| Link Inductor   | : No  |
| Memory card   | : Not included in the product                     |
| USB port  | : Only with plug-in                               |
| Line frequency  | : 50/60Hz   |
| Line frequency range (minimum - maximum)                | : 48-62 Hz  |
| Phase unbalance   | : Less or equal to 3% of input rated line voltage |
| Transient voltage and overvoltage                       | : Category III                                    |
| Single-phase input current [3]                          | : Not applicable                                  |
| Three-phase input current [3]                           | : 19,5 A  |
| Typical input power factor                              | : 0.75  |
| Displacement factor                                     | : 0.98  |
| Rated efficiency  | : ≥ 97%   |
| Maximum connections (power up cycles - on/off) per hour | : 10 (1 each 6 minutes)                           |
| DC power supply   | : Allow   |
| Standard switching frequency                            | : 5 kHz   |
| Selectable switching frequency                          | : 2.5 and 15 kHz                                  |
| Real-time clock   | : Not available                                   |
| Copy Function   | : Yes, by MMF or plug-in or alphanumeric HMI      |
| Dissipated power:                                       |   |

| Mounting type | Overload       |                |
|---------------|----------------|----------------|
|               | ND             | HD             |
| Surface       | 270 W          | 270 W          |
| Flange        | Not applicable | Not applicable |

### Source available to the user

|                  |          |
|------------------|----------|
| Output voltage   | : 24 Vcc |
| Maximum capacity | : 150 mA |

### Control/performance data

|                                  |  |
|----------------------------------|--|
| Power supply                     | : Switched-mode power supply               |
| Control method - induction motor | : V/f, VVW, Sensorless, Encoder and VVW PM |
| Encoder interface                | : Only with plug-in                        |
| Control output frequency [5]     | : 0-500 Hz                                 |

### Control/performance data

|                             |                         |
|-----------------------------|-------------------------|
| Frequency resolution        | : 0,015 Hz              |
| V/F Control                 |                         |
| - Speed regulation          | : 1% of rated speed     |
| - Speed variation           | : 1:20                  |
| VVW Control                 |                         |
| - Speed regulation          | : 1% of rated speed     |
| - Speed variation           | : 1:30                  |
| Sensorless vector control   |                         |
| - Speed regulation          | : 0,5% of rated speed   |
| - Speed variation           | : 1:100                 |
| Vector control with Encoder |                         |
| - Speed regulation          | : 0,1% of nominal speed |
| - Speed variation           | : Up to 0 rpm           |

### Analog Inputs

|                             |                            |
|-----------------------------|----------------------------|
| Quantity (standard)         | : 1                        |
| Levels                      | : 0-10V, 0-20mA and 4-20mA |
| Impedance for voltage input | : 100 k $\Omega$           |
| Impedance for current input | : 500 $\Omega$             |
| Function                    | : Programmable             |
| Maximum allowed voltage     | : 30 Vcc                   |

### Digital inputs

|                         |                           |
|-------------------------|---------------------------|
| Quantity (standard)     | : 4                       |
| Activation              | : Active low and high     |
| Maximum low level       | : 5 V (low) e 15 V (high) |
| Minimum high level      | : 9 V (low) e 20 V (high) |
| Input current           | : 4.5 mA                  |
| Maximum input current   | : 5.5 mA                  |
| Function                | : Programmable            |
| Maximum allowed voltage | : 30 Vcc                  |

### Analog outputs

|                       |                                     |
|-----------------------|-------------------------------------|
| Quantity (standard)   | : 1                                 |
| Levels                | : 0 to 10V, 0 to 20mA and 4 to 20mA |
| RL for voltage output | : 10 k $\Omega$                     |
| RL for current output | : 500 $\Omega$                      |
| Function              | : Programmable                      |

### Digital outputs

|                     |                                  |
|---------------------|----------------------------------|
| Quantity (standard) | : 1 NO/NC relay and 1 transistor |
| Maximum voltage     | : 240 Vca and 24 Vcc             |
| Maximum current     | : 0.5 A and 150 mA               |
| Function            | : Programmable                   |

### Communication

- Modbus-RTU (with accessory: Any plug-in module)
- Modbus/TCP (with accessory CFW500-CEMB-TCP)
- Profibus DP (with accessory: CFW500-CPDP)
- Profibus DPV1 (with accessory: CFW500-CPDP)
- Profinet (with accessory CFW500-CEPN-IO)
- CANopen (with accessory: CFW500-CCAN)
- DeviceNet (with accessory: CFW500-CCAN)
- EtherNet/IP (with accessory CFW500-CETH-IP)
- EtherCAT (Not available)
- BACnet (CFW500 G2 / CFW501 G2 / MW500 G2 with accessory: Any plug-in module)

### Available protection

- Output phase-phase overcurrent/Short
- Overcurrent/Short circuit phase-ground
- Under/Overvoltage in power
- Heat sink overtemperature
- Motor overload
- IGBT's modules overload
- Fault/External alarm
- Programming error

### Operation interface (HMI)

|                       |                           |
|-----------------------|---------------------------|
| Availability          | : Included in the product |
| HMI installation      | : Fixed HMI               |
| Number of HMI buttons | : 9                       |
| Display               | : Numeric LCD             |
| Indication accuracy   | : 5% of rated current     |

# DATASHEET

## Variable Speed Drives

### Operation interface (HMI)

|                                   |                  |
|-----------------------------------|------------------|
| Speed resolution                  | : 0,1 Hz         |
| Standard HMI degree of protection | : IP66           |
| HMI battery type                  | : Not applicable |
| HMI battery life expectancy       | : Not applicable |
| Remote HMI type                   | : Accessory      |
| Remote HMI frame                  | : Not applicable |
| Remote HMI degree of protection   | : IP54           |

### Ambient conditions

|   |                          |
|---|--------------------------|
| Enclosure   | : IP66                   |
| Pollution degree  | : 2 (EN50178 and UL508C) |
| Temperature around the inverter: of -10 °C / 14 °F to 40 °C / 104 °F. For temperatures above the specified is necessary to apply current reduction of 2 % per °C of 40 (104) to 50 °C (122 °F).   |                          |
| Relative humidity: 5% to 95% without condensation.  |                          |
| Altitude: up to 1000 m (3281 ft) under normal conditions. Of 1000 m (3281 ft) to 4000 m (13123 ft) reduce the current in 1% for each 100 m above (0,3% for each 100 ft above) of 1000 m (3281 ft). Reduce the maximum voltage (240 V for models 200...240 V, 480 V for models 380...480 V and 600 V for models 500...600 V) in 1,1% for each 100 m above (0,33% for each 100 ft above) of 2000 m. |                          |

### Sustainability policies

|                   |                            |
|-------------------|----------------------------|
| RoHS              | : Yes                      |
| Conformal Coating | : 3C2 (IEC 60721-3-3:2002) |

### Dimensions and weight

|          |                      |
|----------|----------------------|
| - Size   | : B (IP66)           |
| - Height | : 340 mm / 13.4 in   |
| - Width  | : 215 mm / 8.46 in   |
| - Depth  | : 252.9 mm / 9.96 in |
| - Weight | : 9.3 kg / 20.5 lb   |

### Mechanical Installation

|                                      |                        |
|--------------------------------------|------------------------|
| Mounting position                    | : Surface              |
| Fixing screw                         | : M5                   |
| Tightening torque                    | : 5.5 N.m / 4.06 lb.ft |
| Allows side-by-side assembly         | : No                   |
| Minimum spacing around the inverter: |                        |
| - Top                                | : 50 mm / 1.97 in      |
| - Bottom                             | : 60 mm / 2.36 in      |
| - Front                              | : 50 mm / 1.97 in      |
| - Between inverters (IP20)           | : 40 mm / 1.57 in      |

### Electrical connections

Cable gauges and tightening torques:

|           | Recommended cable gauge                   | Recommended tightening torque |
|-----------|---|-------------------------------|
| Power     | 4.0 mm <sup>2</sup> (12 AWG)              | 1.8 N.m / 1.33 lb.ft          |
| Braking   | 6.0 mm <sup>2</sup> (10 AWG)              | 1.8 N.m / 1.33 lb.ft          |
| Grounding | 4.0 mm <sup>2</sup> (12 AWG)              | 0.5 N.m / 0.37 lb.ft          |
| Control   | 0.5 to 1.5 mm <sup>2</sup> (20 to 14 AWG) | 0,5 N.m / 0.37 lb.ft          |

|   |                             |
|---|-----------------------------|
| SoftPLC                                   | : Yes, incorporated         |
| Maximum breaking current                  | : 24.0 A                    |
| Minimum resistance for the brake resistor | : 33 Ω                      |
| Recommended aR fuse [6]                   | : FNH00-35K-A               |
| Recommended circuit breaker [6]           | : MPW40i-3-U025             |
| Disconnect switch                         | : Without disconnect switch |
| Motor coupling box                        | : Not applicable            |

### Standards

|                               |  |
|-------------------------------|--|
| Safety                        | <ul style="list-style-type: none"> <li>- UL 508C - Power conversion equipment.</li> <li>- UL 840 - Insulation coordination including clearances and creepage distances for electrical equipment.</li> <li>- EN 61800-5-1 - Safety requirements electrical, thermal and energy.</li> <li>- EN 50178 - Electronic equipment for use in power installations.</li> <li>- EN 60204-1-Safety of machinery. Electrical equipment of machines. Part 1: General requirements. Note: To have a machine in accordance with that standard, the manufacturer of the machine is responsible for the installation of an emergency-stop device and a network switching equipment.</li> <li>- EN 60146 (IEC 146) - Semiconductor converters.</li> <li>- EN 61800-2 - Adjustable speed electrical power drive systems - Part 2: General requirements - Rating specifications for low voltage adjustable frequency AC power drive systems.</li> </ul> |
| Electromagnetic Compatibility | <ul style="list-style-type: none"> <li>- EN 61800-3 - Adjustable speed electrical power drive systems - Part 3: EMC product standard including specific test methods.</li> <li>- EN 55011 - Limits and methods of measurement of radio disturbance characteristics of industrial, scientific and medical (ISM) radio-frequency equipment.</li> </ul>   |

### Standards

|-------------------------|--|
|                         | <ul style="list-style-type: none"> <li>- CISPR 11 - Industrial, scientific and medical (ISM) radio-frequency equipment</li> <li>- Electromagnetic disturbance characteristics - Limits and methods of measurement.</li> <li>- EN 61000-4-2 - Electromagnetic compatibility (EMC) - Part 4: Testing and measurement techniques - Section 2: Electrostatic discharge immunity test.</li> <li>- EN 61000-4-3 - Electromagnetic compatibility (EMC) - Part 4: Testing and measurement techniques - Section 3: Radiated, radio-frequency, electromagnetic field immunity test.</li> <li>- EN 61000-4-4 - Electromagnetic compatibility (EMC) - Part 4: Testing and measurement techniques - Section 4: Electrical fast transient/burst immunity test.</li> <li>- EN 61000-4-5 - Electromagnetic compatibility (EMC) - Part 4: Testing and measurement techniques - Section 5: Surge immunity test.</li> <li>- EN 61000-4-6 - Electromagnetic compatibility (EMC)- Part 4: Testing and measurement techniques - Section 6: Immunity to conducted disturbances, induced by radio-frequency fields.</li> </ul> |
| Mechanical Construction | <ul style="list-style-type: none"> <li>- EN 60529 - degrees of protection provided by enclosures (IP code).</li> <li>- UL 50 - enclosures for electrical equipment.</li> <li>- IEC 60721-3-3 - classification of environmental conditions - part 3: classification of groups of environmental parameters and their severities - section 3: stationary use at weather protected locations level 3m4.</li> </ul>   |

### Certifications

UL, CE, RCM, CS/IRAM, EAC, UKCA and RoHS  
CHINA

### Notes

- 1) Motor power is orientative, valid for standard WEG Motors of IV poles. The correct sizing must be done according to the nominal current of the motor used, which must be less than or equal to the rated output current of the inverter;
- 2) Braking resistor is not included;
- 3) Considering minimum line impedance of 1%;
- 4) For more information, refer to the user manual of CFW500 G2;
- 5) All images are merely illustrative.
- 6) For operation with switching frequency above nominal, apply derating to the output current (refer to the user manual).
