Continuous current	5A resistive	Dielectric strength contact to coil (AC 1min.)	2kV	Rated coil power:	0.2W	Size:	10mm thick	Environmental:	RoHS	Ambient Temperature (non-condensing):	-25 to +40°C
Coil Voltage	24V DC																					
Contact Material	AgNi+Au																					
UL Contact Voltage rating	250V AC / 30V DC																					
Approbations:	cURus																					
Max. Continuous current	5A resistive																					
Dielectric strength contact to coil (AC 1min.)	2kV																					
Rated coil power:	0.2W																					
Size:	10mm thick																					
Environmental:	RoHS																					
Ambient Temperature (non-condensing):	-25 to +40°C
