Desiccant Packets - 1 Cubic Feet (25/Pack)

Packets absorb airborne moisture therefore eliminating corrosion inside of an enclosure.

- Individual packets are used in an enclosure ranging from 1 to 20 cubic feet
- A combination of different size packets can be used for enclosures over 20 cubic feet
- Packets are non-toxic and safe for human contact
- Each packet is capable of absorbing over 500 times its own weight in water
